Mutual fund investing involves risk, including possible loss of principal. There are specific risks inherent in international investing. International investments may involve risk of capital loss from unfavorable fluctuation in currency values, from differences in generally accepted accounting principles, or from social, economic, or political instability in other nations. Current and future holdings are subject to risk.

For each fund with at least a three-year history, Morningstar calculates a Morningstar Rating based on a Morningstar Risk-Adjusted Return measure that accounts for variation in a fund's monthly performance (including the effects of sales charge, loads, and redemption fees), placing more emphasis on downward variations and rewarding consistent performance. The top 10% of funds in each category receive 5 stars, the next 22.5% receive 4 stars, the next 35% receive 3 stars, the next 22.5% receive 2 stars, and the bottom 10% receive 1 star. HHDAX was rated against 737 Foreign Large Blend funds over a three-year period. With respect to these funds, HHDAX received a rating of 5 stars. Past performance is no guarantee of future results.

The MSCI All Country World ex-US Index is a free float-adjusted market capitalization weighted index that is designed to measure the equity market performance of developed and emerging markets, excluding the United States. Index returns do not reflect any management fees, transaction costs, or expenses. It is not possible to invest in an index. For more information, please see current fund prospectus or your financial advisor.
