### WHY INVEST IN HANCOCK HORIZON FUNDS?

To prepare for a future that's nearer - and probably more costly - than you think, you need financial power close at hand. The Hancock Horizon Family of Funds may help you bring financial goals from every stage of your future within your grasp - whether you're planning a home improvement project in a few months, a college education for your children in a few years, or your retirement down the road.

### FUND OBJECTIVE

This Fund seeks capital appreciation by investing primarily in U.S. companies whose sales and earnings are expected to grow at an above average rate. We employ a strict quantitative method of analysis in our investment decision making. We spread the fund's investments across all major sectors, and generally the sector weighting of the fund is similar to that of its benchmark, the Russell 1000 Growth Index.

### VALUE OF \$10,000 INVESTMENT

Assumes initial investment of \$10,000 occurred on the Fund's inception date.

Performance reflects deduction of maximum sales charge.

*A one-month distribution yield is the ratio of actual distributions per share of a mutual fund (on an annualized basis) to the price per share of that fund. In contrast, an SEC yield relates aggregate net earnings of a fund to its aggregate net assets. In any given period a fund may distribute more or less than its actual income.*

*There are specific risks inherent in investing primarily in small cap companies. Smaller companies typically have a higher risk of failure and historically have experienced a greater degree of volatility. Please read the prospectus carefully to obtain a complete understanding of the risks.*

***This information must be preceded or accompanied by a current prospectus for the fund. Read it carefully before you invest or send money. Please see prospectus for more information on charges, expenses, investment objectives, and risk factors along with information regarding other share classes that are offered for purchase.***

*Mutual fund investing involves risk, including possible loss of principal. Current and future holdings are subject to risk.*

*The Frank Russell 1000 Growth Index measures the performance of the 1000 largest U.S. companies based on total market capitalization that have higher than average price-to-book ratios and higher forecast values. Index returns do not reflect any management fees, transaction costs, or expenses. It is not possible to invest in an index.
